

## New Year Greetings

**One more year begins, and I come through this wish everyone a HAPPY NEW YEAR.  
The year 2016 begins full of new emotions and energy.  
Appreciate the cooperation and effort of all during the year 2015.**

2015 was a year of changes for the contractors sector, which sanctioned the law which regulates the licenses for contractors.

In November last year, was held in our office a related lecture the new laws, taught by teacher Tahara, who clarified the important points.

In this case we can count on the distinguished presence of your representatives more than 20 of our customers.

According to the new law, there are significant changes and obligations both for customers, and for contractors. I will explain here briefly, some changes that were made.

### ① Abolition of Registration Contractor

In Japan there are now **83,000** contractors, this total are **60,000** contractors working with simple Contractor Registration.

To compare the number of convenience store in Japan is **53,000**. Therefore the number of contractors is much higher.

As there is a big difference Registered Contractors (simple registered) and licensed (government approval is needed), it is assumed that for this reason has greatly increased the number of contractors with simple registration. Hamamatsu there are many contractors working with simple registration. (For tranquility of all, our company works from the beginning as a Contractor Licensed)

Contractors who are working with simple registration has a period of three years to try to acquire the license issued the government.

If within a period of three years cannot acquire the License, the contractor can no longer exercise legal activities.

### ② Individual period that can allocated in service

### ③ Period in the job sector may receive allocated employee

### ④ Amongst other responsibilities and duties that both the contractor as the factories have to fulfill.

Our company is in constant contact with customers, explaining changes in laws and taking necessary steps, all to maintain the confidence of our customers always.

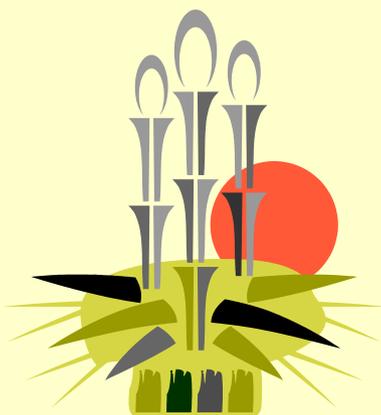

We make every effort to build a company where all employees can work with confidence, everything so that customers and employees can believe 「Was worth coming to Shin-ei」,

we also seek to working for the development of the city of Hamamatsu.

I finish here our New Year's Greetings and

We ask all the collaboration on this new journey

Which begins.

2016 Year  
SHIN-EI SOUGOU SERVICE Co.,Ltd.  
President KATO KAZUYO
