## We will avoid taking pictures in the workplace.

Lately there has been an increase in cases related to the publication of photos taken within the workplace on social networks (Facebook, Twitter, Line, Blog and others.) For many people, it can be considered as a single photo with friends, but can cause serious problems because there is the possibility to display the name of the factory in uniform or of the company's machinery. Consequently, leak information and hurt the company.

So please do not take pictures inside the company with or without uniform and publish on social networks. Thanks the cooperation and understanding.

## Traffic accident prevention during the summer holiday ~ Sincero ~

Due to excessive heat, driving tired over long distances, and coupled with the fact relaxed due to the holiday, decrease safety and attention in traffic are the main cause of serious accidents.

We will respect the traffic laws, not to drive after drinking, and also do not forget to use the seat belt in the passenger.

Use your cell phone even while waiting for the red light, it generates a fine of ¥6,000 and lose 1 point in the driver's license. People riding a bicycle with one hand and the other hand fingering the cell phone, (If caught 2 times in the period 3 years, you must watch a short course and pay the amount of ¥5,700). There are many reports of several people who were warned by the police and so we will be very careful!!!
