

Reflection of the month

Let's express joy and positive feelings!!!

Administrative Department

Payment of residential Tax

There are two ways to pay the residential tax. The residential tax can be deducted from the salary by the contracting company which will transfer the city hall 「Special Contribution」 or the carnet that the taxpayer receives in his house 「Regular Contribution」 are two ways of payment. In general, those who work in Companies, is collected through 「Special Contribution」 but to disconnect the Company, the rest of the residential tax is transformed into 「Regular Contribution」. The value of residential tax refers to the city where he lives in (Register) on 1 January this year and is calculated according to the income of the previous year, even if the taxpayer changes the city is obliged to repay the tax we pay to not be in default.

Starting to work in Shin-ei, if the residential tax is in the situation of Regular Contribution, (those who have the carnet) there is the possibility to switch to Special Contribution, consult your Tantousha for more information. (※ It will not be accepted if the payment period is expired)

For those who have the residential tax in the situation of Regular Contribution in high value, if you cannot pay until the payment period, go to city hall rapidly, depending on the situation there is the possibility of 「amount of installment payment」. Consult the Tax Division of the City Hall. If you do not make payment until the payment period, it will be added 「interest rates」. Even charging interest if the taxpayer does not pay, will suffer penalties as confiscation of property or financial, etc, by judicial means. If payment is applied by judicial means, there is no more partial debt, so we pay tax and perhaps can not, do quickly consultation as City Hall demonstrating the intention of paying correctly.

Certificate of Eligibility

Entering the request of eligibility, have equal evaluation when renew the visa here in Japan. If approved you will receive the certificate of eligibility by the Japanese Immigration. Taking this eligibility certificate at the Japanese consulate in the country the visa will be issued. The merit and that the visa will be issued much faster to enter their own country.
