Tax Filing Seminar

On November 17, an official from the National Revenue Service of Hamamatsu-Nishi held the seminar on the Declaration of Deduction (Nenmatsu-chosei) and Tax Filing (Kakutei-shinkoku). In particular, in order to avoid the risk of 3 MITSU at the service location, it is recommended that Tax Filing for Reiwa 3 (referring to Reiwa 2) be made via electronic means by e-Tax or that the form is created online and sent via mail. The Tax Filing is for those who earn more than 200,000 yen a year from secondary work, those who have paid over 100,000 yen in medical expenses and those who have bought their own home. As the Income Statement is not in foreign languages, if you have any questions, we can help you at the Shin-Ei office, so please contact your Tantosha.

Year-end and new year recess

The office will be closed from December 30, 2020 (Wednesday) to January 5, 2021 (Tuesday) during the year-end and New Year holidays. How do you plan to spend your holidays? Recently, the number of people infected with the coronavirus has increased significantly. It can be tempting to travel on vacation, but put your own safety and your family's safety first. Pay more attention to infection prevention and act responsibly. Also, as always, take good care of your health and never drive under the influence of alcohol. Let's enjoy the winter holidays so that we all can work well next year.

You may find it tempting to take a long vacation, but put your own safety and your family's safety first, pay more attention to infection prevention, and act responsibly and modestly.

Message from Sincero

As insurance agents usually stop during the holiday season, please see each insurer's emergency contact below:
