Let's recheck the rules and manners

Cold, Influenza, Coronavirus

We need to take care of our health in relation to colds, annual Influenza, and the coronavirus. They appear to have similar causes and symptoms, with slightly different progress and prognosis. Please be careful, the situation will get more serious if you don't take care of yourself.

	Cold	Influenza	Coronavirus
Infectivity / transmission route	It's not very strong / contact or by droplets	Strong / contact or by droplets	Very strong / contact or by droplets, aerosol infection
First symptoms	Upper respiratory tract (nose and throat)	Local and systemic symptoms may appear	Local and systemic symptoms may appear
How symptoms appear	Gradual	Sudden	Gradual but becomes suddenly severe and may accompany pneumonia.
Fever	37-38°C (usually low-grade fever)	High fever (sudden fever of 38°C or higher)	Fever of 37.5 °C or higher, may last 4 days or more
Changes in physical condition	Sneezing, runny nose, stuffy nose, coughing, sore throat, etc.	Systemic symptoms such as joint pain, muscle aches, headaches, and chills	Indistinguishable early symptoms of cold and influenza. May have malaise and lack of taste or smell.

Message from SINCERO

If you do not pay car tax by the due date, you will be penalized for delay.

If payment is made within one month, there will be a 2.5% fine (rate set in 2021).

However, if it takes longer, the fine can reach up to 8.8% (rate set in 2021).

If you're late paying car tax, not only will you pay fines, but also you won't be able to get Shaken, you won't be able to dispose of your vehicle, and there are several downsides. Even if you are unable to make a single payment, you can consult the tax office for installment payments. If you haven't paid yet, be sure to pay.

Year-end and new year recess

The office will be closed from December 30, 2020 (Thursday) to January 5, 2021 (Wednesday) during the year-end and New Year holidays. How do you plan to spend your holidays? Recently, the number of people infected with the coronavirus appears to be declining but continue to be careful. It can be tempting to travel on vacation but put your own safety and your family's safety first. Pay more attention to infection prevention and act responsibly. Also, as always, take good care of your health and never drive under the influence of alcohol. Let's enjoy the winter holidays so that we all can work well next year.
